

ported for the Louisville Courier :

POLICE COURT.
GEO. W. JOHNSTON, JUDGE.
THURSDAY, August 1
DUNK AND DISORDERLY.—One Thomas Tier
ranger no doubt, was presented on the al
ges, and having nothing to say, he was
ail for his good behavior three months in \$

of the ball, and was turned loose. The man, who was wearing a dark suit, a big lick over the beard, was next arrested on similar charges, and served the same term.

ARRYING A CONCEALED WEAPON.—THOMAS H. KUNZ was arrested and presented on the charge of carrying concealed a deadly weapon. He was released on the plea of alibi, but on the weight alleging that he was told the police he had a weapon. A pistol was found in his pocket, and he was sentenced to 90 days in the penitentiary.

CHARGING WATERLOOERS—AN ASSAULT.—JACK WATSON, a Waterloo, Ind. boy, was arrested on the charge of stealing two watermelons from Mr. Kane, and then assaulting the latter. He was released on the plea of alibi, but after the thief, who turned him on, was kept him down. Bail of \$100 was required.

CHARGE OF SHOOTING WITHOUT WARNING.—EDWARD S. STERN, a young man, was under arrest on the charge of shooting at Bruce Trabac on Tuesday night last. He was released on the plea of alibi, but later testified to being on the street, and was struck by the accused, for no reason whatever. He was released on the plea of alibi, but he hit him first, when some one said, shoot, and the witness ran away, hearing the report of the gun. He was released on the plea of alibi, but later testified to seeing one running and the other pursuing and firing at him. A man was released on the plea of alibi, but later testified to seeing his pistol at Trabac as he retreated.

[illegible][illegible]

For their vigilance. In the house of a carpenter, well filled with tools, and a carpet sack, well filled with straw, they hid, also a family bible, and other books, belonging to Harrison Laville, slave, and the marriage of Harrison, who got off with a wife and a child named Eliza. A letter was written by the fugitives to a friend, and always, said Buckner, as the active agent of the cause. A letter was written from Chattanooga, Tenn., to a friend, and always, said Buckner, as the active agent of the cause. A letter was written from Chattanooga, Tenn., to a friend, and always, said Buckner, as the active agent of the cause. A letter was written from Chattanooga, Tenn., to a friend, and always, said Buckner, as the active agent of the cause.

[illegible]

After Mr. Ritter's majority, 57, the vote, as published above, was received by the Secretary's office, duly certified. The vote was sent on the 17th and compared the vote with the vote for the Secretary. Mr. Ritter carried to him his commission. On the morning of the 18th, the Secretary of the State received a certificate with a letter from Judge Donaldson, a Justice, and one of the board of examiners for Warren county, stating that he had received the vote of the electors of Warren county; that Green's vote was 54, instead of 57, which makes a difference of 20 votes in Green's favor. The Secretary immediately counted 54 votes. The Secretary replied that the election having been issued and forwarded by the Secretary of the State, the vote appearing in the certificate of the Justice, was, therefore, beyond his recall. The result was, unfortunately, but no blame can be attached to any one. The examiners pursued their duty under the law, and Mr. Donaldson, a Justice, was not responsible for the error. Mr. Ritter will probably not accept the election under the circumstances.—Frankfort

Correspondence of the Philadelphia Press
ARACAS, July 14, 1858.—On the 5th inst.
vention met at Asunción. The constitution
was then adopted, and a convention
one.

The Secretary of Foreign Affairs, in view of
the fact that the United States had no
mines, our worthy representative, on the 6th
the Ayres Island reclamation, by order of
the United States, has failed to obtain
justice of the claim.

For several years this question has been a
subject of discussion between the United
two countries, and recently the cause
claim mission to Washington. Its denial
the United States, and the United States
structure between the two countries. The ques-
tion involved the delicate point of terri-
tory, but Mr. Eames has so evidently pro-
posed a solution, that it is not probable
it was in derelict, that the present ad-
ministration will be disposed to oppose his coun-
struction of this fact.

England and France have lately sent in-
sulting demands for the United States
of Monagas, Gutierrez, and Guisepi,
satisfaction for the alleged violation of their
territory, and the United States has
states, that they were compelled to de-

[illegible]

possible. This determination is right, possibly be rigidly adhered to. The money piece line passes \$25,000,000 in the downward direction. The profits should be applied to the purchase of new machinery, until they can reach a safe figure and speculation is not possible.

The undrawn deposits show only a small amount of half a million, which would indicate that little of the new loan has been taken for capital investment with surplus monies.

The Jersey people have invented some new harness. The ordinary saddle is displaced by a new harness for breeding. The harness is controlled by two friction rollers at the end of the shaft bars. The shaft bars are controlled by two terrets at the end of the horse can be detached from the carriage harness by means of two spring hooks, and the harness can be detached from the carriage at all times.

The Jeffersonville Railroad is the direct route from Louisville, St. Louis, Cairo, Kansas, Chicago, Springfield, Decatur and the principal cities in the West and Northwest.

Trains on this route form close connection at Seymour with trains on the Ohio and Mississippi Railroad, St. Louis and the West, and Cincinnati and the East; also at Indianapolis with the different roads for all places East, West and North.

Only one change of cars between Louisville and St. Louis, Cincinnati or Chicago. Baggage checked to all the principal cities. For time and further particulars examine advertisement in another column of this paper.

Through tickets given to all the principal cities on the Missouri and Mississippi rivers; also to all the principal places in the East, West and North.

Office No. 527, southeast corner Main and Third streets, Louisville, Ky., where travelers can examine map and get further correct information.

Reading Matter on every page.

UNIVERSITY OF LOUISVILLE—Every page.

The news of the destruction of the Medical College of the University of Louisville, by fire, some eighteen months ago, spread rapidly over our continent. The disaster was chronicled in every medical journal and in nearly every newspaper in the land. In the last few months a new building, superior in its structure and all its internal arrangements, to the old one, has been erected and furnished, and the knowledge of this fact spreads slowly. Students of medicine still write to the Medical Faculty to learn whether the effects of the disaster have been repaired, and whether the course of instruction is going on as usual. We take great pleasure in stating that the institution has risen from the effects of the fire rather invigorated than enfeebled, and that its prospects for an overflowing class are more cheering than they have been for a long time. We have not a doubt that its recent losses will prove a benefit to it in the end, and that its future will be more successful than its past.

Louisville is marked by nature as one of the great centers of medical instruction on our continent, and our University Medical School has long held a proud rank among the American schools of medicine. We assure students that they will find here everything that they could ask or desire for the prosecution of medical studies.

CITY COUNCIL—THE NEW MAYOR.—The city council, in joint session last night, elected Thomas W. Riley, Esq., mayor, to fill the term vacated by the late Mayor, Wm. S. Fisher. He was elected on the first ballot, receiving 15 votes, Westfall, 5, and Col. Bayless 1.

Resolutions of regret for the death of the late Mayor, General Phelps, and expressive of his merits and virtues as a man and a citizen, were passed. We were unable to obtain these from the Clerk of the Board of Common Council.

The Common Council passed a resolution donating \$500 to the widow and children of policeman Coulter, who was killed on Tuesday night.

Robt. Lloyd and Joe Sweeney were elected night watchmen to fill vacancies, the first in the first district, and the other in the fourth. Sweeney is the individual who made himself notorious by assaulting the Rev. Mr. Bristol.

Mr. Gillis reported an ordinance creating the office of city interpreter, elective in September of each year. This, we suppose, is intended to supersede Jack Ruckstahl, if it can be done.

TERRIBLE ACCIDENT.—On Monday morning last, about two o'clock, as the Louisville and Nashville stage was coming down the hill which leads to the town of Louisville, Ky., the horses became frightened and soon got to a run, and beyond the control of the driver, Joseph McKent. The stage was overturned, the corner falling upon the body of the driver, crushing it awfully. The horses got clear with the fore wheels and soon drew up against a fence. The other passengers were not injured at all, except Mrs. Samuel Fisher, who was slightly bruised. McKent died subsequently.

MINNESOTA.—Money is so scarce in this State that large property holders are compelled to sell real estate at half its cost a year or two since to obtain the bare necessities of life. Provisions are, however, cheap. The terrible speculative mania has produced an inflation almost unprecedented, and considerable time must elapse before the people can recover from the reaction. At St. Paul, the depression is the worst. City scrip is selling at a discount of 75 cents on the dollar, and county scrip is but little better.

A PLEASANT BUSINESS.—A gallant young conductor on one of the New York city railroads, the other day, was honorably acquitted of blame by the directors, for kissing a pretty passenger, who, she alleged from the cars. Another conductor, who lodged the information, was discharged.

Kissing is popular with young persons, and, perhaps, with older ones too.

SHELL OTTERS AT WALKER'S—First of the season.

JOHN C. WALKER, Esq., of Walker's Exchange, who will sustain the enviable reputation gained for that establishment, by the Walker of all Walkers, have received shell otters, the first of the season. We know that such is the fact, because a lunch sent to our restaurant yesterday, was composed of the aforesaid bivalves, which were so juicy and by no means hard to take. For this and the creature comfort accompaniment we thank Walker & Co.

MARSHALL COUNTY.—This county gives Rev. 550 votes, McKee 56. Among the many bright places we find in looking over the election returns as they come in, Marshall county certainly is the brightest of them all. Democracy all over.—Preston Statesman.

BRIGHT AS MARSHAL COUNTY.—There is yet one hill brighter, Johnson county, was up in the mountains, where the men breathe as pure and free an air as can be found on earth, gave Rev. 619 and McKee only 11. Johnson is pre-eminent entitled to the banner.

FIRE IN NEW ALBANY.—A correspondent writes that a fire broke out yesterday in the planing machine and manufactory of J. C. Howard, in New Albany, which, with its contents, valued at \$5,000, was burned. The extensive tannery of Beushaw, on the opposite of the street, was saved by the efforts of the fire department, who had employed fifteen or twenty hands, who lost all their tools, and are thrown out of employment.

RAILROAD CARS OFF THE TRACK.—We learn from Capt. Henry, Adams & Co.'s Express Messenger on the Louisville, Frankfort and Lexington Railroad, that the cars ran off the track of the Kentucky Central Railroad on Wednesday night. A little boy named Fox was the only one hurt. The accident was caused by an axle breaking which threw off the baggage and two passenger cars. We did not learn where the accident occurred, or the extent of the damage done.

UNDERSTOOD ABOUT CASH.—By referring to our police report, it will be seen that Dick Barker, a free negro, has been fully committed to jail to answer to the charge of aiding slaves to escape. He has been an active, though secret agent of the Black Republican Abolitionists for a long time, and has made a great deal of money robbing and cheating the deluded slaves.

RAVENS OR STALKS.—Yesterday morning, a policeman, without warrant, or a moment's notice, pounced upon a citizen, and he was aware of his intention, searched his pockets for a concealed weapon. This is an assault upon a citizen, and a violation of law which will not always be tamely submitted to. The police are, or should be, the conservators of the law.

CONNECTION.—In our report of election returns, in Trimble county, Mr. E. D. Gillum, who was elected county assessor, was classified as a Know Nothing. This is a big mistake, as Mr. G. never belonged to that society. He was formerly an Old Line Whig, but since the advent of Sam, he has been acting heartily with the Democracy.

A COLLISION.—A collision occurred yesterday near the court house, in which a small man, with heavy harness, was upset by a large man who didn't sport the harness. Cause, unknown; effect, slight edging of blood and mud, the spit back, and several falls.

From Trimble County.

Benton, Ky., Aug. 17th, 1888.

Editor Daily Courier:—Old Trimble responds heartily to your glorious triumph in Louisville. You have done well, and this good stronghold of the Democracy can again hail you in full fellowship. We are glad that the cynic, headed, bottle-nosed, wasp-tempered rule of Plug Uglyism is over.

You know we have two fine watering places, the Bedford Springs and the Hot Springs, the energetic and obliging landlords, N. Parker & Sons, and the Eppon Springs, under the charge of the amiable Dr. Edward Caspary, formerly of Louisville, who are men afflicted with dyspepsia, or diseases of the kidneys, or bladders, relieved after two or three weeks of the water, and invalids look here for the true fountain of health. Great improvements may be expected before the opening of the next season, which are justified by the crowds of visitors who have been welcomed here this year for want of accommodation.

Our bracing mountain air, our blackberries, and sweet berries, are sufficient inducement to draw your city guests to this agreeable resort. Your paper is the most popular of course, in this region, and we appreciate the great services you have done for the cause of true Democracy. Just come up, if you want a real Kentucky greeting. Yours, truly, PROMONTORY.

TO CONSUMPTIVE INVALIDS, and all those who suffer with diseases of the Throat and Lungs.—We are requested to say, that owing to the number of invalids who have written to Dr. F. H. Flower, and their way to this city in order to consult him, that Dr. F. has returned to Louisville, Ky., and will remain at his office, on the corner of Centre and Green, during the summer months. He is desirous of establishing a permanent office in this city. His peculiar theory is rapidly gaining for him a successful practice. He offers as usual, consultations free to all.

The man who was drowned from a coalboat on the night of the 17th inst., and who was called Jno. Burns by the coroner, has since been ascertained to be John Henry Melton, an American and not an Irishman, as was stated. He was raised in this city, and his parents are now in Cincinnati. His wife, who is left destitute with three small children, thinks his death was not accidental.

ACCIDENT.—Pat Dillon, one of the proprietors of the Comet saloon, on Tuesday night dropped his pistol at the corner of Seventh and Jefferson streets, which discharged. The ball entered his right leg, inflicting a slight wound. Dr. Thomas G. Griffith extracted the ball.

DISCHARGED.—Simson Foreman, charged with being accessory to the murder of Coulter, the policeman, was discharged yesterday, no proof being adduced against him.

Wm. Gilmore.—We understand that Wm. Gilmore, who was shot in the encounter with Coulter, at a late hour last evening was very low. It is thought he will not recover.

THE YELLOW FEVER.—The yellow fever is more fatal in Cuba this year than for thirty years past. No part of the island is exempt from its ravages, but at Matanzas the sickness is particularly rife.

Pearls have been discovered in a tributary of the Arkansas river, in the Southwestern part of Kansas. It seems now to be a gem of a place, but we never thought so before.

Our readers will bear in mind that S. G. Henry & Co. will sell at their auction rooms this morning, at 10 o'clock, a lot of fine tobacco, cigars, groceries, furniture, and a large lot of glass ware.

A man named Henry Hamburg was arrested by a policeman in Portland, yesterday, charged, we believe, with obtaining some articles from a clothing store on a forged order.

On Saturday night last, as usual, there were several fires in Philadelphia. One man was mortally wounded.

The editors of New Jersey met in convention at Patterson last week, to consider matters pertaining to their interests.

The Louisville Journal calls the Atlantic cable "the umbilical cord of the continents," we suppose because it comes under the head of naval affairs.

The "Howard Association," whose laudable exertions in the epidemics in New Orleans, in past years, won them immortal honor, have reorganized.

Hoo Cholera.—This disease is killing the hoo in Pulaski county. Five hundred have died in one season.

Six prisoners, en route for the penitentiary, from McCracken county, Ky., came up on the Time yesterday, in custody of officers.

YELLOW FEVER IN NEW ORLEANS.—The telegraph reports 40 deaths on Wednesday from yellow fever in New Orleans.

Thirteen thousand nine hundred and nineteen German emigrants arrived in New Orleans in the year ending June 1st.

It is proposed to erect a monument to Capt. John Smith, of early Virginia memory, at Jamestown in this State.

The Nashville end of the L. & N. Railroad will be completed to Gallatin by the last of next month.

From Washington—Brigham Young.

WASHINGTON, Aug. 17.—The Indian Bureau has received a communication from Brigham Young in which he says he will give way to Dr. Forney, and close his office as Superintendent of Indian Affairs.

He asks for an allowance of \$1,500 to reimburse him for food and presents to the Indians in order to conciliate and keep them in check until the peaceful results following the advance of the troops could be explained to them.

It is suspected by the Commissioner of Indian Affairs that the Indians are desirous of leaving their own pursuits, but finding he could not use them, wants the government to pay the expenses.

He also desires that the government should send a large body of men to the Indian Territory to fix a time and place for the meeting of the Indians to receive the presents, etc., authorized by recent act of Congress to be distributed among them.

He has returned to the Sioux agency. Superintendent Adams has taken measures to meet them in council on the 17th August.

A MOST FORTUNE.—We are informed that on Sunday last a party of young men from Middletown, Butler county, Ohio, from twelve to fifteen in number, were on a wild, drunken spree, at the place where the road crosses the river, and Winchester crosses the Miami river, when a young man named Shelby, who resided in the country there, they pulled out and reviled him a little, when they threw him in again, and tormented him until he was utterly helpless, paring the hair from his head, and then they dragged him upon the bank, placed a plank across his breast, and covering him with brush, left him. He was found by a physician, who sent for his persecutors had placed him.—Cin. Commercial.

FAIR OF THE U. S. AGRICULTURAL SOCIETY.—The annual fair of the U. S. Agricultural Society will take place at Richmond, Va., during the last week of the present month, commencing on the 25th.—The prize money is \$15,000, and the grounds are among the premiums to be awarded we may mention \$100 for Durham bulls, not under three years, old; \$50 for Hampshire and Berkshire hogs, for Ayrshire, Hereford, and Alderney bulls, and \$75 each for cows and heifers. In the horse department premiums of \$100, \$75, \$50, \$30, down to \$10, will be awarded, while for sheep the premiums will range from \$30 down to \$5. The grounds at Richmond are very commodious and accessible. The Virginia Central Society has agreed to furnish the grounds, etc., and guarantee the payment of \$100,000 in premiums in addition to the prize money. The U. S. Society, Hon. Caleb Cushing, of Massachusetts has been invited to deliver the annual address.

A SLAVE MOTHER KILLS HER CHILD.—The Hoo Half Devil!—We learn that on Sunday last a slave woman about 45 years of age, owned by Mr. Cleveland, of Florence, Ky., gave birth to a child, and that she took the infant by the heels and threw it into the fire, and then threw it over a fence, and covered it with rails. A few hours later it was discovered by persons belonging to the household, who happened to pass by, when it was found dead in the fire. The child had been born dead, and the woman was accused of the horrible crime, but at first denied it. A physician was sent for, who examined her person, and found that she had recently given birth to a child. The mother acknowledged her guilt.—Cincinnati Gazette.

SMOKING SNAKE.—Edward Brown, formerly of Tennessee, passed a season at the Lagrange House, Lagrange, Mo., last Saturday morning, by blowing his brains out with a pistol. He left behind him a note.

He was in my own hand. Cause—Poverty and want of employment. —BROWN.

DISCOURT.—Serious apprehensions are entertained that we are to have a protracted drought in this region of the country. Tobacco is suffering severely for want of water, and the corn crop on Martowne, some few are cutting their crop to keep it from being "dried" for want of rain. Corn is also suffering.—(Lagrange) Ky. Free Press.

ELECTION RETURNS.

Coroner—Camel Creek, Dem, 164.

Eclipse Base Ball Club.

Editors Louisville Courier:—We are pleased to inform you that a base ball club was organized on the 18th inst., under the name of the Eclipse Base Ball Club, of Louisville, Ky.

The officers are as follows: C. U. Shreve, President; Frank Tryon, Vice President; Higgins, Secretary; J. C. Cowling, Treasurer; Messrs. Holdridge, McDonald and Westway, constitute the Board of Directors.

The grounds for field exercises are Wednesdays and Fridays.

I understand it is the desire of the Louisville and Eclipse Base Ball Clubs to play a trial game on the opening of the Fair in September.

From the names that appear on the roll of the Eclipse, we just think that there is a club of gentlemen who will endeavor to bring their game equal to that of the celebrated New York and Brooklyn clubs.

Yours, truly, SUBSCRIBER.

THICKS OF TRADE.—The New York News states that a friend purchased some beautiful red and apparently ripe peaches from the fruit seller, and that upon peeling them, he found them perfectly green under the skin, the seller having painted the skins red in order to make them saleable.

DRYDIPY WOMAN TRIES.—Bartholomew Holland Butters has cured me of Dyspepsia by using it only one week. I recommend it confidently to all suffering from Dyspepsia.

CLARA E. SCHUCHMAN.

(Mrs. S. is the wife of the noted Lithographer.)

The late High Sheriff of Allegheny county has given us the following:

"I was afflicted with Debility of the Digestive Organs amounting to a severe attack of Dyspepsia, which had reduced my flesh considerably. My wife was also afflicted under same circumstances, and with same disease. Having used your medicine called Bartholomew Holland Butters, we have been cured of our ailments, and are able to afford you this public evidence of its value."

JOHN FORSTH.

PARTICULAR NOTICE.

All transient Advertisements, Notices, Circulars, Financial Notices, &c., &c., MUST BE PAID FOR IN ADVANCE, or they will not be inserted. This rule will be imperative, irrespective of persons.

CHILLS! CHILLS! CHILLS!

HUGHES' TONIC is purely vegetable in its composition, and will be found peculiarly adapted to the cure of Chills and Fever in all cases, and particularly so in those cases where the system is debilitated by chronic diseases, caused by agues and other malarious diseases. It will be found of decided benefit by counteracting any nervous derangement, and by giving tone to the stomach and liver, thereby restoring the system to its normal condition. It is a powerful tonic, and produces no headache, dizziness, nausea, or any other unpleasant sensations whatever. Testimonials of its efficacy can be seen in the columns of the Louisville Courier.

SUBSTITUTION OF HUGHES' TONIC, Proprietors, for sale by all Druggists and country Merchants.

NOTICE.

THE public of Louisville, stock keepers, manufacturers, and others are hereby cautioned against crediting Mrs. Hannah Jones (my wife) from this day forth, as I will not be responsible for any debt contracted by her.
